EXPERIENCE

DELEGATOR WEB DEVELOPER 2013-PRESENT

Development and design for an assortment of client-based projects, using CSS, HTML, Javascript, and PHP, with an emphasis on the Magento platform. Handling client relations, as well as working on both the backend and frontend.

REMBRANDT'S COFFEE HOUSE BARISTA 2012-2013

Crafted various different types of drinks while working with a different type of Java. Collaborated with peers in order to assure the best service possible and train newer recruits, as well as care for any customer and their needs.

SATE AIR FORCE RESEARCH LAB INTERN 2012

Worked in peer-lead teams on projects to meet the Air Force's needs. Transported data collected from various other teams and visualized it within a virtual environment, with the intent of making it accessible to many during times of disaster.

GEORGIA TECH RESEARCH CORPORATION IT 2010-2012

Managed department computers, including software and hardware distribution and maintenance. Filled in as front desk receptionist, as needed, working with clients via phone and in person.
