## MAUREEN BASIL

Web Developer

### EXPERIENCE

2013 – 2017

#### **Delegator**

*Web Developer*

Development and design for an assortment of client-based projects, both frontend and backend, as well as strengthening client relations. Primary responsibilities included designing custom themes for Magento and Wordpress clients, while also implementing custom features and extensions using JavaScript and PHP. Implementation of custom theme design was majorly done with HTML and Sass/Less/CSS.

2012

#### **SATE Air Force Research Lab**

*Intern*

Transported data collected from external sources and visualized it within a virtual environment, working with various teams. Coded with PHP to pull and organize raw data from a MySQL database, then visualized with HTML/CSS.

2010 – 2012

#### **Georgia Tech Research Corporation**

*IT Support*

Managed department computers and distribution of software, along with maintenance of both. Filled as receptionist, working with clients via phone and in person.

### EDUCATION

2013 – 2017

#### **University of Tennessee at Chattanooga**

*Computer Science: Software Systems, B.S.*

2010 – 2012

#### **Georgia Institute of Technology**

*Computer Science*

### SKILLS

Technical Experience: Adobe Creative Suite, Microsoft Office, Sublime Text, OSX, GitHub, Amazon Web Services, Google App Engine

### ABOUT

Hello, I'm Maureen!

Many consider me to be full-stack, however, I have a focus on frontend development. Working with both designers and developers is one of my specialties. I enjoy reading and gaming.
